PORTFOLIO

https://laisoun.github.io/my_portfolio/

SUMMARY

Detail-oriented Information Technology student specializing in Front-End and Web Development. Proficient in crafting responsive user interfaces with HTML, CSS, Bootstrap, and JavaScript, supported by practical experience in back-end integration using PHP, Laravel, and Node.js. Adept at database management with MySQL and API testing via Postman. Eager to leverage technical skills and strong problem-solving abilities to contribute to software development projects in a dynamic company.

EDUCATION

Bachelor of Information Technology |

National Technical Training Institute (NTTI) Year 3

High School Diploma (Bac. II) | Burany Hunsen Chomka Lue High School (2023)

TECHNICAL SKILLS

- **Front-End Development:** HTML5, CSS3, Bootstrap, JavaScript (ES6+)
- **Back-End Development:** PHP, Laravel, Node.js
- **Databases:** MySQL
- **Tools & Software:** Git, GitHub, Visual Studio Code, Postman, Microsoft Office Suite (Word, Excel, PowerPoint)

SOFT SKILLS

- **Project Leadership:** Led student teams in project assignments, ensuring effective task division, collaborative problem-solving, and high-quality deliverables.

KEY PROJECTS

Personal Portfolio Website

- Designed and deployed a fully responsive portfolio showcasing web projects using HTML, CSS, and Bootstrap.
- Optimized layout structures for seamless viewing across mobile, tablet, and desktop screens.

Simple Blog Content Management System (CMS)

- Built a dynamic blogging application using PHP and MySQL.
- Implemented full CRUD functionality (Create, Read, Update, Delete) for posts, ensuring secure data flow.

RESTful API Development & Integration Project

- Developed lightweight REST API endpoints using Node.js.
- Tested and verified API requests, responses, and status codes using Postman.
